MAESTRO ENCORE

The trouble-free sit-stand transition with space to spare.

The Maestro's second act is a symphony of advanced ergonomics and additional adjustability. A duet of platforms increases your workspace range, with the keyboard platform lifting and tilting into the perfect position for you to master your workday.

POSITIONAL POWER
Ergonomically engineered to suit everyone from the 5th percentile seated female to the 95th percentile standing male.

SEAMLESS SHIFT
The gas assist counter-balance arms raises and lowers the Maestro Encore through an impressive 22" height range.

SUPERIOR SPACE
The Maestro Encore offers more working space with two 9" x 28" work surfaces, while keeping your desk clear.

PERFECT FIT
Compatible with almost any desk or work surface—and the sleek black or silver and black tones blend with any office design.

FLEXIBLE FUNCTIONALITY

In lifted position, the Maestro Encore offers more work surface space while it can also be positioned flush to the desk. Choose from single monitor or dual monitor configuration.

CONVENIENT KEYBOARDING

The keyboard tray features an independent 3.43-inch height adjustment as well as 19 degrees (+4°/-15°) of tilt to accommodate the best typing posture.

PERFECT POSITIONING

The Maestro Encore also features an 8.3" independent monitor height adjustment, tilt, and rotation for the optimal viewing angle—all with quick VESA-mount installation.
