

The J2407 is another example of BodyBilt's commitment of providing ergonomic solutions to meet a variety of workplace needs. The #7 Seat offers a comfortable choice with moderate contouring that accommodates the largest percentile of workers. The J2407 model features a compact back, which is 3" narrower in width and 2" shorter in length than the 2500 Series. This chair is ideally suited for the user with a more compact body-frame.

Standard Features:

- High-Back (20" long x 20" wide at bottom 16" wide at top)
- Upholstered Back Shell
- Backrest angle adjustment
- Backrest height adjustment (4" range)
- Armrest height, angle, articulation & width adjustment
- Black, non-upholstered arm pads (Soft, 4" wide)
- Seat height adjustment (5.5" range)
- Seat tilt adjustment & tension control
- 360° swivel
- Black 26" five-star base
- Hooded carpet casters
- J style adjustment (seat pivots from center of mechanism)
