

BodyBilt's J757 Mid-Back Task seating was designed specifically for desktop intensive job performers. In addition to BodyBilt's #7 pressure reducing, moderately contoured seat, this model features ten ergonomic adjustments that allows the user to control their own comfort level. The J-style mechanism pivots from a point near the center of the chair and allows for either a smooth rocking motion or may be locked in a stationary position.

Standard Features:

- Mid-Back (18.5" long x 18.5" wide)
- Backrest angle adjustment (15° range)
- Backrest height adjustment (4" range)
- Armrest height, articulation, angle, & width adjustment
- Black, non-upholstered arm pads (Soft, 4" wide)
- #7 Seat (19" depth x 21" width)
- Seat height adjustment (5.5" range)
- Seat tilt adjustment and tension control
- 360° Swivel
- J-style adjustment mechanism (seat pivots from the center of mechanism)
- Black 26" five-star base
- Hooded carpet casters
