

Dual Monitor Arm Specs

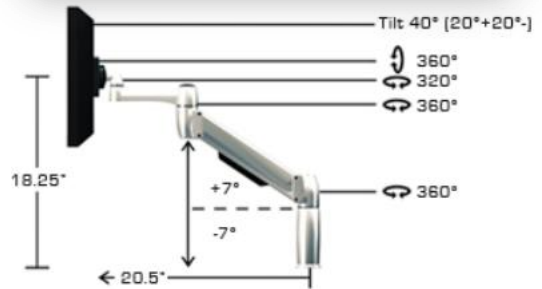

Product Number
EF-02-Q-GT-P

Our dual monitor arms allow you to position your multi-screens independently, so you can decide to have them side-by-side, or offset. Both arms are supported by a dual hub.

Also available in triple and quad configurations, as well as for multiple bank screens. Uses a standard Vesa hole pattern; adaptable for Apple monitors.

- 360° rotation capabilities.
- Accommodates two standard computer monitors.
- Independent angle and height adjustments.
- 14" height range.
- 20.5" depth range.
- Supports monitors up to 34 lbs.
- Platinum finish.
- Grommet mount, also available in Bolt-Thru, C-Clamp and Vertical mounts.
- Made of 100% recycled Aluminum

← Grommet Mount

Our dual arm grommet mount provides added stability; will fit standard grommet holes.
