MIDCELLI. Incomparable Comfort. Intuitive Adjustments.

ULTRA Arms. Agile & Awesome.

The sleek, space-saving design incorporates the performance and range of adjustments that you expect from BodyBilt. The ULTRA Arm affords agility in your workspace while not compromising healthy wrist and arm postures.

Innovative Adjustments

Midcelli's intelligent mechanism encourages personalized ergonomic support and motion. True to BodyBilt's ergonomics, the Midcelli performance criteria includes seat slide, fixed or locking back tilt/rocking motion, and tension control all at your fingertips.

Superior Lumbar Technology

The Midcelli's revolutionary air cell technology not only looks great. It works for you! The lumbar pillows are designed to facilitate lower back movement, encourage airflow for long-term comfort, and may be vertically adjusted up to 2.5" since we are not all the same size.

S'port Foam may be added to the seat for an additional \$45.

Chrome Package available at an extra charge.

The new Midcelli body-fitting back and seat contours remain the hallmark of BodyBilt's patented, ergonomic design. Its lean design brings a sophisticated profile to your workspace. And the proprietary elastomeric mesh back is uniquely designed for airflow and individualized sacral and lumbar support, giving you just the right amount of support in both the lower and upper back regions. Now you can work comfortably all day, while effortlessly modifying postural positions. The Midcelli adheres to function over form, encouraging and promoting a healthier posture and freedom of movement.
