

# THE CELLI FAMILY

## Ergonomic Office Seating

Providing flexible premium comfort seating options with a consistent look and feel while meeting all of your environmental needs.

### CORE CELLI FEATURES

#### ELASTOMERIC MESH

- ❖ Pressure-reducing, yet supportive.
- ❖ It's flocked mesh, making it softer to the touch and to clothing.
- ❖ Dynamic tensioning of the mesh is more supportive and taut in the lumbar, more relaxed in the shoulder area.

#### AIR CELL LUMBAR

- ❖ Lumbar system consists of multiple cells - differing heights to maximize comfort and back support.
- ❖ Lumbar fits the lower back like a glove.
- ❖ Due to positioning, it also allows freedom of movement, side-to-side or reclining.

#### COMFORTABLE SEATING INSPIRED BY

BodyBilt™ ergonomic engineers inspired by NASA research, developed a proprietary pressure reducing contoured seat and back that relieves your body of back and leg pain, as well a muscle fatigue by lessening the devastating effects of gravity.
