COMPLETE CONTROL
OF YOUR COMFORT LEVEL

J2502

CLASSIC HIGH BACK

The BodyBilt J2502 Series ergonomic, high-back task chairs are scientifically engineered to better position you in the workplace and in-home office, minimizing the physical stress resulting from limited mobility and repetitive motion.

Our ergonomic task chairs can be adjusted in various ways because they have a unique 10-point posture control, allowing you to set your ergonomic chair to an unsurpassed level of comfort.

BodyBilt®

FEATURES

J2502 - CLASSIC HIGH BACK

Seat

Maximum Contour

BodyBilt's original design

- Most deeply contoured seat pan
- Designed to give high level of support in forward tilt position.
- Contouring allows for greatest contact with seated worker, reducing seated pressure and provides comfort without creating pressure points.
- Pommel serves as "ergonomic speed bump" encouraging workers to sit back in chair

Hand Made Construction

All BodyBilt chairs are handmade in our US manufacturing facility by a team of skilled craftsmen.

High Back Support

The high back ensures additional comfort for people sitting long periods of time.

Adjustable Arms

Five - Way Adjustable Arms in height and range.

Base and Casters

Comes with our standard 26-inch base with carpet casters.

Designed for Comfort

Our standard maximum contoured seat reduces seated pressure.

Optional Air Lumbar

Air Lumbar allows you to adjust the level of lumbar support to perfectly meet your needs.

Contoured Seat

Shown with the Maximum Contoured seat (2).

Mechanism

Multi-functional with center pivot (J).

*Shown as model J2502 in standard configuration.

Optional Features

- Inflatable Air Lumbar®
- S'port® Ridge
- Fabric Protection
- S'port® Lumbar
- S'port® Foam
- Variety of Casters & Glides
- Specialty Stitching Available
- Other Chair Arms Available
- Upholstered Arm Pads
- Various Base Options Available
